8th October 1973

OCT 10 1973

Dear Friend,

The Chile Solidarity Campaign Committee was formed a fortnight ago. Included among the members are representatives of such mass organisations as, for example, T & GWU, London Trades Councils, National Union of Students, and representatives of regional committees (based on Trades Councils) and of various political organisations, including a member of the Labour Party NEC and others. Our next meeting is this Thursday 11th October at the above address at 7.30 pm. We very much hope that your organisation can send a representative, in order that our Committee can be truly representative of the broad labour movement, and build the kind of solidarity movement with the people of Chile, which is so necessary in view of the brutal repression there.

We also hope that your organisation will give active support to the national demonstration which we have called for November 4th in London. We believe that this can be a truly massive demonstration, reflecting the profound feelings in support of the people of Chile which have been expressed by the Labour and Trade Union movement.

Yours fraternally,

Steve Hart
Secretary
